

Thank you for your gift to Gammalsvenskby in Ukraine!

Gammalsvenskby is located on the river Dnipro in southern Ukraine. It was founded by Swedish-speaking farmers in 1782. After difficult times with world war, revolution and famine, they returned to Sweden in 1929. Some returned to Ukraine. This population group is called Swedish villagers.

The association Svenskbyborna has been providing humanitarian aid to the village for a long time. Since Russia's invasion of Ukraine began, we started a war fundraiser. Gammalsvenskby was Russian-occupied until November 2022. Since October, there is no electricity, nor water or internet. The village is bombed by terrorists and winter came in mid-November.

With your gift we can cover the urgent needs such as functioning water, heat, food and materials to repair bombed houses. With your gift we can on a more long-term reconstruction plan to make Gammalsvenskby an attractive place to return to.

**Your donations makes the actual aid shipment!
Thank you!**

Association Swedish Villagers/Föreningen Svenskbyborna
